

Ross Stores Reports November Same Store Sales Gain Of 2%

November 29, 2012

PLEASANTON, Calif., Nov. 29, 2012 /PRNewswire via COMTEX/ --Ross Stores, Inc. (Nasdaq: ROST) today reported that sales increased 6% to \$813 million for the four weeks ended November 24, 2012, up from \$765 million in sales for the four weeks ended November 26, 2011. Comparable store sales for the month grew 2% on top of a 5% increase in the prior year.

For the ten months ended November 24, 2012, sales totaled \$7.773 billion, an 11% increase over the \$6.976 billion in sales for the ten months ended November 26, 2011. Comparable store sales for the ten months ended November 24, 2012 grew 7% on top of a 5% gain in 2011.

Michael Balmuth, Vice Chairman and Chief Executive Officer, commented, "November same store sales were slightly ahead of our expectations of flat to up 1%. We achieved these results despite unseasonably warm weather in the Western U.S. during the first half of the month. We are encouraged that our sales strengthened as weather normalized during the final two weeks."

Looking ahead, Mr. Balmuth continued, "While we are pleased with our above-plan results in November, most of the holiday shopping period is still ahead of us. As a result, we continue to project comparable store sales gains of 2% to 3% and 1% to 2% for December and January, respectively."

Additional recorded information concerning today's press release and the Company's future outlook can be accessed by calling 203-369-3267, ID# 112812 from 8:30 a.m. Eastern time on November 29, 2012 through 8:00 p.m. Eastern time on November 30, 2012. The Company plans to issue December 2012 sales results on Thursday, January 3rd.

Forward-Looking Statements: *This press release and the recorded comments on our corporate website contain forward-looking statements regarding expected sales, earnings levels and other financial results in future periods that are subject to risks and uncertainties which could cause our actual results to differ materially from management's current expectations. The words "plan," "expect," "target," "anticipate," "estimate," "believe," "forecast," "projected," "guidance," "looking ahead" and similar expressions identify forward-looking statements. Risk factors for Ross Dress for Less® ("Ross") and dd's DISCOUNTS® include without limitation, competitive pressures in the apparel or home-related merchandise industry; changes in the level of consumer spending on or preferences for apparel or home-related merchandise; the impact from the macro-economic environment and financial and credit markets including but not limited to interest rates, recession, inflation, deflation, energy costs, tax rates and policy, unemployment trends, and fluctuating commodity costs; changes in geopolitical and geoeconomic conditions; unseasonable weather trends; disruptions in supply chain; lower than planned gross margin, including higher than planned markdowns and higher than expected inventory shortage; greater than planned operating costs; our ability to continue to purchase attractive brand-name merchandise at desirable discounts; our ability to attract and retain personnel with the retail talent necessary to execute our strategies; our ability to effectively operate our various supply chain, core merchandising and other information systems; our ability to improve our merchandising capabilities through the implementation of new processes and systems enhancements; achieving and maintaining targeted levels of productivity and efficiency in our distribution centers; and obtaining acceptable new store locations. Other risk factors are set forth in our SEC filings including without limitation, the Form 10-K for fiscal 2011 and Form 10-Qs and 8-Ks for fiscal 2012. The factors underlying our forecasts are dynamic and subject to change. As a result, our forecasts speak only as of the date they are given and do not necessarily reflect our outlook at any other point in time. We do not undertake to update or revise these forward-looking statements.*
