Results exceeded our expectations as our marketing initiatives continue to attract more customers while our compelling combination of great brands at exceptional values and an enhanced store experience continued to resonate. As a result, customer traffic remained the primary driver of our comparable store sales growth. We are encouraged by the broad-based strength of our results and the continued positive response from customers to our brands, values, and shopping experience."

Sales for the third quarter increased 12% to $6.3 billion, up from $5.6 billion in 2025. Comparable store sales rose a strong 8% for the quarter on top of a 7% gain last year. Fiscal 2026 Guidance

Mr. Conroy commented, "Looking ahead to the holiday season, we are excited about the opportunities in front of us and confident in the plans we have in place for the remainder of the year. For the fourth quarter, we are maintaining our outlook for comparable store sales growth of 4% to 5%, on top of last year's strong 9% gain. Earnings per share are expected to be in the range of $2.16 to $2.25 or growth of 8% to 13%."

Mr. Conroy continued, "Based on our year-to-date results and our updated fourth quarter guidance, we are increasing our 2026 fiscal year earnings per share projections to be in the range of

$8.75 to $8.84. As a reminder, our full year guidance includes an approximate $0.60 earnings per share benefit from IEEPA tariff refunds recognized in the second quarter."

Mr. Conroy concluded, "The market share gains we have achieved reinforce our confidence in the opportunities ahead, and we believe we are well positioned to continue strengthening our competitive position and driving sustainable, profitable growth over the long term."
